

TECOI CORTE S.L. is a company dedicated to the design, manufacture, marketing, installation, training and maintenance of industrial plasma cutting machinery, oxyfuel, laser, machining, edge preparation for welding and specialized marking.

TECOI CORTE S.L. also provides engineering solutions based on excellence technical and individualized services.

In order to achieve an effective implementation, the participation and collaboration of all human resources are required. We are led by the absolute involvement of our Managing Director, having as objectives the following principles:

- **QUALITY** is the key factor in the survival and growth of the company.
- **QUALITY** is the individual firm intention of doing the right things at first.
- **QUALITY** is the effort of our Organization aimed to the satisfaction of the CLIENT and of all the INTERESTED PARTIES.
- **QUALITY** is to analyse the context of our Organization, and to achieve the OPPORTUNITIES generated, throughout the RISKS assessments, NEEDS and also EXPECTATIONS that are presented to us.
- **QUALITY** is the permanent fulfilment of all the existing requirements: client, legal and interested parties
- **QUALITY** is the education of our human resources. The individual and professional development of the greatest asset: our people.
- **QUALITY** is to pay maximum attention to the development and improvement of new methodologies and technologies within reach. It is our main purpose to set up a process of CONTINUOUS IMPROVEMENT.

To be successful in the implementation, development and maintenance of this Quality Policy, our Managing Director requests the participation and involvement of all the hierarchical levels both in their individual actions, as in their teamwork. Our goal is to establish, maintain and keep up to date the Integrated Quality System that ensures the satisfaction of our clients.
